

# SunSystems for Financial Services

Control costs and monitor compliance

# Control costs and monitor compliance

Financial services organisations face multiple pressures. It is crucial to deliver against the requirements of the various stakeholders while remaining compliant in the increasingly regulatory environment.

In many cases, accounting systems struggle to provide useable reports, much less, compelling analysis. SunSystems via FinanSys helps financial services organisations to overcome these challenges:

Analyse the KPIs that matter – every financial services organisation is different and SunSystems allows you to monitor all the Key Performance Indicators (KPIs) which matter to you, quickly track: fund, project, cost centres and employee along with any other definable analysis across your organisation.

Regulatory compliance – equip your organisation with automated, regulatory compliant reporting to meet your individual reporting requirements.

Steamline integration – powerful integration tools mean that SunSystems can seamlessly integrate with other operational systems, including: trading, treasury management, fund management, CRM, payroll and banking.

Control purchases and expenses – keeping a tight control

of non-salary spend is important, SunSystems allows you to monitor and approve this spending and ensure it remains within budget.

Complex multi-company/currency setup – Financial services organisations structures can get complex, SunSystems handles unlimited currencies with multiple base/reporting currencies and unlimited companies out of the box.

## SunSystems with FinanSys

- 20+ years of financial expertise
- Highly focussed on customer service
- Full focus on SunSystems
- Delivers fast ROI

*"Our company has been with FinanSys for few years and we are very happy with the products and support they provide. Barbara and the whole support team are only a phone call away and they always deal with the problem as soon as it arises. They are all very experienced and extremely understanding and helpful."*

Renata Sangseter - Salix Finance

## What are the next steps?
